## **Information for Patients**

Thank you for registering with our Practice. This booklet has been produced to help you make the best use of the services in our practice and to introduce you to the teams that provide those services.

### **The Practice**

We are a group of 15 GPs working together. The practice is a partnership between the Royal Crescent Surgery situated in Weymouth town centre and the smaller Preston surgery on the outskirts of the town. We work together to care for approximately 18,000 patients living in our practice area. A map of the area from which we accept patients can be found on the back cover. We provide a high-quality service for all our patients. Our aim is to maintain the best possible standard of physical and mental health for each person. We recognise that both the practice and each patient have a role in achieving this.

Both surgeries are purpose built and were originally completed in the mid-1980's. Since then, several extensions have been added to provide the facilities that we have today.

There is a car park and suitable access for the disabled to the reception area and consulting rooms.

### **CQC Inspection Rating**

Royal Crescent and Preston Road Practice has been awarded the rating of '**Outstanding**' by the Care Quality commission (CQC).

### **The Practice Manager - Mrs Sandra Maddison**

Our practice manager is responsible for the efficient running of the practice and the planning of future services. If you have comment on any aspect of your healthcare, Sandra would be pleased to hear from you.

### **Assistant Practice Manager - Mrs Tracy Sheppard**

Our assistant practice manager assists and deputises for the practice manager on all practice matters.

### **Senior Administrators**

Our senior administrators work in the reception area as part of the reception team. They also provide senior administration support for the surgery and staff. They are available to help you with any general query.

### **Receptionists**

The receptionists will assist you in making routine and emergency appointments to see a doctor, nurse or other healthcare team member. They undertake repeat prescriptions and answer numerous and varied questions. They will offer help and assistance at all times and are here to help you. When you telephone they may ask you for some details. They are trained to make enquiries and to signpost you to help as best they can.

### **GP Registrar**

The practice is a training practice. Our registrars are fully qualified and have a great deal of hospital experience. Registrars are appointed by the practice and are attached to the practice for 6 to 12 months during which time they complete their training to become a GP. When booking an appointment, you may be offered an appointment with one of our registrars.

## **Advanced Nurse Practitioner**

Advanced Nurse Practitioners are highly experienced nurses who have undertaken additional training and share the workload of the GPs. They are able to diagnose, prescribe and refer. They work closely with the GPs and will deputise for your usual GP when they are not available. Patients can choose to see the Advanced Nurse Practitioner if they wish.

## **Practice Nurses**

Our practice nurses are available by appointment and their numerous tasks include child and adult immunisations, cervical smears, dressings, removal of stitches, ear syringing and assisting with minor medical and surgical procedures. The nurses also run regular clinics covering a variety of health topics including the following:

<b>Asthma</b>	<b>Diabetes</b>	<b>Coronary Heart Disease (CHD)</b>
<b>Coronary Obstructive Pulmonary Disease (COPD)</b>		

## **Health Care Assistant (HCA)**

HCAs work alongside the Doctors and Nurses as part of our healthcare team. They have been trained to carry out routine tests and health checks and are an important part of our team. HCA's can cover:

<b>ECGs</b>	<b>Blood Pressure checks</b>	<b>Urine Analysis</b>
<b>Blood tests</b>	<b>B12 Injections</b>	<b>NHS Health Checks</b>
<b>Diabetic Foot Checks</b>	<b>Removal of Stitches</b>	<b>Ear Syringe</b>

## **Phlebotomists**

Phlebotomists work as part of our healthcare team and are trained to take blood for analysis, blood pressure, and record height and weight.

## **Proactive Frailty Team**

The Practice provides proactive care for frail patients. Our team carry out proactive visits to our patients in residential and nursing homes and to patients who live in their own homes.

## **District Nurses**

The Community Nursing Service is primarily a visiting service who work closely with the surgery. The district nursing team provides skilled nursing assessment, care, advice and health education to patients who cannot leave their own homes. They work with the GPs and other professionals to ensure that you and your family receive the help and support needed when being nursed in the community.

Patients eligible to receive the nursing service in their own homes are those who:

- Are unable to travel to surgery/hospital due to serious illness or disability
- Are recovering from surgical intervention and are unable to travel
- Need palliative nursing care
- Have undergone chemotherapy/radiotherapy and travel would be detrimental to recovery
- Need treatment which cannot be appropriately carried out in the surgery setting

Please inform a member of the team if you are not going to be at home when a visit has been arranged. It is also important to keep any pets under control when a member of the team is due to call.

## **Health Visitors**

Our health visitors are specially qualified nurses and are based at Littlemoor Health Centre. They provide information, advice and support to families and co-ordinate child development checks. Telephone Number: **(01305) 361071**

## **Midwives - Ante-natal and Post-natal care**

A shared care system is provided between the GPs, Midwives and Dorset County Hospital. A small team of midwives is attached to each surgery. The midwives offer antenatal, labour and postnatal care whether you choose to have a hospital or home birth. A midwifery clinic is held once a week at the surgery. Antenatal classes and postnatal care are provided in partnership with the health visitors. If you think you are pregnant, you should either make an appointment to see the GP or refer yourself directly to the midwives. Please ask at reception for a self-referral form.

## **Chaperoning**

For all intimate examinations, patients will be offered a chaperone (impartial observer). This will usually be another Doctor, Nurse or Health Care Assistant. If another clinician is not available, the Doctor or Nurse may rearrange the examination for when one is available.

If delaying the examination would compromise a patient's care, there are members of the reception team available who have been trained to act as chaperone, and with patients consent can be used. Friends or relatives may be present for support, but they would not be deemed as an impartial observer.

If you decline a chaperone, this will be documented in your medical records and often the examination will still be undertaken however there may be instances where a clinician deems it necessary to refer patients to alternative colleagues.

Please let a receptionist know if you would like a chaperone.

If needed, we can rearrange your appointment so that you can be seen by a doctor of the same gender as you. You may bring a friend or relative of your choice with you.

We can arrange for another nurse, doctor or receptionist to be present during your examination.

## **Other Services**

In addition, the following services are available at the practice.

### **Steps 2 Wellbeing**

You can now be referred or refer yourself to Steps 2 Wellbeing which will enable you to access a range of helpful services quickly and easily. Their aim is to support people in Dorset who are suffering from problems, such as low mood, depression and anxiety.

You can refer yourself to this service by calling **(01305) 367051** or online at [www.steps2wellbeing.co.uk](http://www.steps2wellbeing.co.uk) . For more information, pick up a leaflet from the surgery

### **Citizen Advice Bureau**

This is a free, confidential, impartial and independent service. All appointments are held at Royal Crescent Surgery and you can make an appointment to see the advisor through reception. Telephone **(01305) 774466**.

## **Smoke Stop Services**

If you would like help to give up smoking our Smoke Stop Nurse can advise you on the different aids and methods available to help you give up smoking. Please ask at reception if you would like to book an appointment.

## **Other Information**

### **Appointments**

All consultations with GPs or Nurses are by appointment only. You can book appointments up to 6 weeks in advance.

### **Extended Access Appointments**

The Improved Access to General Practice Service (IAGPS) is available at Weymouth Hospital. It is staffed by local GPs, nurse practitioners, practice nurses and health care assistants and provides a mixture of primary care appointments.

The service provides appointments outside core practice hours, i.e. weekday evenings and weekend appointments. If you would like to book one of these appointments, please ask at the surgery.

### **Home Visits**

Home visits are carried out at the discretion of the doctor. If you are too ill to attend the surgery, you may ask for a home visit. Please ring before 11am and be prepared to give some information about your problem.

Your details will then be passed to a doctor who will ring you back and, with you, will decide the best course of action. This may be telephone advice, a prescription or a home visit by our visiting nurse or doctor.

### **Telephone Advice**

We appreciate that on certain occasions it is useful to speak to a doctor on the telephone. When requesting a call back, you will be asked to provide some details regarding your query. This will then be passed to a GP, who will call you back at the end of their surgery. Please call in the afternoon for advice on a Monday, as the morning is our busiest time.

We also offer a **Telephone Consultation** service for problems that can be dealt with over the telephone. Please ask the receptionist if you would like a telephone consultation, you will be given a time slot for your appointment. The GP will then phone you back at the arranged time for your consultation.

### **Repeat Prescriptions**

If you are taking regular medication you will be given a repeat prescription request form every time you renew your prescription. It is important that medicines are not wasted - decide which items you need, tick them clearly on the form and cross out those items that you do not need.

Requests can also be emailed to us at [preston\\_receptionist@gp-j81027.nhs.uk](mailto:preston_receptionist@gp-j81027.nhs.uk). Or requested through **SystemOnline**. Always allow at least **TWO working days** to get your prescription ready. If you require your prescription to be posted back please provide a stamped addressed envelope. It is important to give as much notice as possible. Do not leave it until the last minute as you risk running out of medication.

We can send your prescription electronically directly to the pharmacy of your choice, please inform reception of your chosen pharmacy.

## **Online Services - SystemOnline**

Through SystemOnline you can now **request your medication, book and cancel appointments and view part of your medical records** on line including your **test results**.

To register for this service, you will need to complete a Patient Online request form available from the surgery or to download from our website. You will need to personally bring to reception two separate forms of ID, one being photo ID and another proof of your address. You will then be supplied with a login and password enabling you to use Patient Online Services.

## **Test Results**

If you are asked to telephone for the result of a test our receptionist will give you the result as directed by your doctor. For blood test results please allow 5 days and X-ray results 14 days. Please telephone after 10.30am.

## **Patient Participation Group (PPG)**

The surgery has an active patient participation group which is available for all current members of the practice to join. The PPG help us identify areas where we can improve or change, help us set goals and produce positive results. For further information contact **Tracey Scorer** our **PPG Co-ordinator** at the surgery.

## **Registrations**

To register with the surgery, please personally bring to reception two separate forms of ID, one being photo ID and another proof of your address. (Please discuss with reception if you have difficulty providing this information). We will also require your NHS Number to complete your registration. All adult patients will be requested to complete a questionnaire. As we run a personal list system you will be allocated a GP who you will manage your care.

## **Change in personal details**

Please inform reception if you change your name, address or telephone number. If you would like to change your name please bring in documentation to support this request i.e. Marriage Certificate or Change of Name Deed.

## **Fees**

Some items are not covered by the NHS and you may be asked to pay a fee. This includes some travel immunisations, private medical certificates, insurance, employment medicals and documentation for fitness to drive a vehicle and fitness to travel. A list of fees is displayed at the reception desk.

## **Foreign travel**

You should make an appointment for travel immunisations **at least six weeks** before foreign travel. There may be a charge for some immunisations. Please note that the practice may not be able to offer appointments at short notice.

## **ARE YOU A CARER?**

A Carer is someone who, without payment, regularly helps a disabled, ill or frail relative, friend or neighbour. A Carer may be of any age and includes young carers under 18.

A Carer may look after someone with:

- A Learning Disability
- A Mental Illness
- Alcohol / Drug related problems
- Other special needs relating to children and older people.
- A Physical Disability
- A sight or hearing difficulty
- HIV or AIDS

If you are a Carer please ask at reception for a Carers registration form we can then contact you with information about services and support that can assist you within your caring role. We have links with the Carers Team at Dorset County Council and other organisations that support Carers.

For further advice and information about support services, please ask to speak to our Carers Lead.

## **Self-Treatment of Common Illnesses and Accidents**

Many common aches and pains can be simply treated at home without the need to consult your doctor. You can get advice by calling NHS 111 or via the website [www.nhs.uk](http://www.nhs.uk).

Remember to keep a stock of useful medicines and dressings in readiness for minor illnesses. Your local chemist will also be able to give you advice.

- Ask your pharmacist for advice about choosing the right medicines for common ailments
- Your pharmacist will advise you if you are unsure about seeing a doctor.
- The pharmacist will offer advice about a problem if you are not sure what is causing it.
- Be sure to tell your pharmacist if you are taking other medicines—some medicines are not compatible.

## SURGERY OPENING TIMES

Monday to Friday 8:20am – 6:30pm

## **EMERGENCY CALLS WHEN THE SURGERY IS CLOSED**

If you are unwell in the evening, overnight or at the weekend when the surgery is closed, contact the **Dorset Urgent Care Service** on

# **111**

This service is for urgent medical situations – if you, or a member of your family, become ill and you are concerned. It is not for routine enquiries, such as booking an appointment with your GP, repeat prescriptions, test results etc.

When you ring the Dorset Urgent Care Service, your call will go through to a trained member of staff will take some details from you. They will pass your details straight over to a clinician who will ring you back at ask you more about the problem and, with you, will decide the best option for you. Depending on the seriousness of your condition, this might be:

- Advice over the phone
- A visit to a local treatment centre, or
- A home visit by a nurse, doctor or paramedic

Alternatively, you can ask for advice on the same number. NHS 111 can give you general medical information 24 hours a day. Their trained nurses can provide you with expert health advice and reassurance any time of the day or night.

You can also get information on-line at **[www.nhs.uk](http://www.nhs.uk)**

Your local pharmacy (chemist) can provide advice and support. Your local paper will have details of pharmacies opening times in the evenings and at weekends.

### **Community Urgent Care Centre (UCC) - Weymouth Community Hospital**

Open 08:00 – 20:00 7 days a week, including Bank Holidays      **01305 762541**

The Community Urgent Care Centre provides treatment for people with non-life-threatening injuries and urgent medical problems. Patients will be directed to their GP if their problem is not urgent, or a local pharmacy if the problem is best managed there.

The centre offers seven day X-ray facilities and provides treatment for problems such as:

- Sprains and broken bones
- Minor burns, cuts, animal bites and infected wounds
- Chest infections and asthma attacks
- Bladder and kidney infections

Anyone with a serious injury or illness should go to the A&E department at Dorchester County Hospital.

**If your injury or illness is severe, or you have had a serious accident  
Call 999 and ask for an ambulance**

## **APPOINTMENTS**

### **Named GP**

All patients have a named GP. This means that your care will be managed by this GP and that your appointments will be with them to provide the continuity of care that our patients tell us they need.

If however you find that your needs are not being met then you may choose to request a different GP. Please put your request in writing or speak to reception, advising who you wish to move to and why.

### **How do I make an appointment with my named GP?**

You can book an appointment online or by contacting the surgery. You will be able to book an appointment with your named GP well in advance and this is the best way to plan your care. This may be an appointment in the Surgery or a telephone consultation.

### **What happens if I need to see a GP urgently and my GP is not available?**

When your GP is not available we would encourage you, for routine ongoing episodes of care, to book an appointment for when they return.

Any urgent need you have which requires dealing with more quickly will be dealt with by either another GP or a Nurse Practitioner. This may be an appointment in the Surgery or a telephone consultation.

### **I have been allocated to a male (female) GP but on this occasion I would prefer to see a female (male) GP – is this possible?**

Yes, absolutely. Please just ask the receptionist when you book your appointment.

### **Can I choose to see the Registrar or other trainee GP?**

Yes. If you prefer to book with the Registrar or other trainee GP please just ask the receptionist when you book your appointment. You can choose an appointment in the Surgery or a telephone consultation.

### **Can I choose to see the Nurse Practitioner?**

Yes. If you prefer to book with the NP please just ask the receptionist when you book your appointment. You can choose an appointment in the Surgery or a telephone consultation.

### **Appointments**

If you are delayed or cannot attend your appointment, please contact the surgery as soon as possible to cancel. The appointment can then be offered to somebody else.

When you arrive at the surgery, check in either by using our self-check machine or at reception, the doctor or healthcare professional will call you in.

### **Telephone Consultations**

We offer a telephone consultation service for problems that can be dealt with over the telephone. You may request a telephone consultation by contacting the surgery. You will then be given a time slot for the GP to phone you. The GP will then phone you back at the arranged time for your consultation.

## **Practice Charter**

These are the local standards set within this practice for the benefit of the patients.

- It is our job to give you treatment and advice. Following discussion with you, you will receive the most appropriate care, given by suitable qualified people. No care or treatment will be given without your informed consent. In the interest of your health it is important for you to understand all the information given to you. Please ask us questions if you are unsure of anything. Help us to help you.
- The confidentiality of patient medical records is maintained at the highest level at all times. Your records will not be shared with a third party without your consent. You have the right to see your health records, subject to the limitations in the law.
- The practice keeps computerised medical records. These records are covered by the General Data Protection Regulation (GDPR).
- You will have rapid access to a doctor in case of an emergency.
- Keep your appointment or cancel it, do not waste it.
- We run an appointment system in this practice. You should not wait more than 30 minutes without receiving an explanation for the delay.
- Please ask for a home visit by the doctor only when the patient is too ill to visit the surgery.
- Please request your prescription in good time—this will help avoid delays.
- If you experience severe chest pain that you think might be a heart attack, call 999 and ask for an ambulance
- Out-of-hours cover, when the surgery is closed, is for URGENT medical conditions only.
- Please let us know if you change your name, address or telephone number. To maintain confidentiality and provide the best possible service, it is important that we have the correct details.

### **Confidentiality**

All staff at the Practice are bound contractually to maintain patient confidentiality. We respect your right to privacy and keep all your health information confidential and secure. For further information our Privacy Statement and 'Your Information – What you need to know' patient leaflet can be found on our website or at the surgery.

### **Car Parking**

There is parking available for patients visiting the practice with designated disabled bays. Please park carefully and avoid blocking access. The surgery claims no responsibility for any damages whilst parking in our carpark.

## **Accessibility**

All patient areas at the Surgery are on ground level. A wheelchair is available for your use. If you have any access problems, please discuss with the reception and we will do our best to help. Outdoor cycle racks are available for use. No dogs allowed inside the building apart from guide dogs.

## **Zero Tolerance Policy**

The Royal Crescent and Preston Road Practice is committed to taking all reasonable precautions necessary to ensure the safety and well being of its employees and endeavours to ensure that all employees are protected from physical and verbal abuse.

### **Definition of Physical and Verbal Abuse**

Physical and verbal includes:

- Unreasonable and/or offensive remarks or behaviour
- Harassment
- Threatening behaviour
- Actual assault
- Attacks on members of staff/public
- Damage to employee's/employer's property

Our practice staff are here to help you. Our aim is to be as polite and helpful as possible to ALL patients.

If you feel you have been treated unfairly or inappropriately, please ask the reception staff to contact the manager who will be happy to address your concerns.

## **AGGRESSIVE, ABUSIVE OR VIOLENT PATIENTS**

We will not tolerate aggressive, abusive or violent behaviour towards any member of our staff and operate a zero-tolerance approach to violent or aggressive incidents. If you indulge in such behaviour, the incident will be reviewed and if we feel it appropriate, you will be removed from our medical list in accordance with NHS guidelines.

The practice considers aggressive behaviour to be any personal, abusive and aggressive comments, cursing and/or swearing, physical contact and aggressive gestures.

Any incident of verbal abuse whether in person or on the telephone will be reported to the Manager who will keep a log of all incidents. A formal letter will be sent to you (a copy of which will be kept with your medical record) and any response to our letter will be recorded.

Physical abuse will be reported immediately to the Police and you will immediately be removed from our list. The Police will then take whatever action they feel appropriate. Please remember that assaults against NHS staff are regarded as a serious matter, worthy of prosecution. (Should any member of staff be put in fear of violence, they are under instruction to call the Police).

Practice staff are here to help you so please treat us in the manner in which you would wish to be treated yourself. Please help us to help you.

# THE ROYAL CRESCENT AND PRESTON ROAD PRACTICE COMPLAINTS PROCEDURE

We always try to give you the best services possible, but there may be times when you feel this has not happened. This leaflet explains what to do if you have a complaint about the services that we provide for you.

Our practice procedure is not able to deal with questions of legal liability or compensation. We hope you will use it to allow us to look into and, if necessary, put right any problems you have identified or mistakes that have been made.

If you use this procedure it will not affect your right to complain to the NHS Dorset if you so wish at a later date. You may also want to contact an independent agency such as the Independent Complaints Advocacy Service (ICAS). However, all complaints will be dealt with first by the surgery. The appropriate contact addresses for NHS Dorset and the Independent Complaints Advocacy Service (ICAS) are given below. Please note that we have to respect our duty of confidentiality to patients and a patient's consent will be necessary if that patient in person does not make a complaint. Complaints should normally be made within 12 months of an incident happening or of becoming aware of the problem.

If you wish to make a complaint, please phone or write to our Practice Manager. If you prefer, please ask for a complaint form, which you can fill in and return to the practice. The Practice Manager will acknowledge this within three working days. If you telephone, the Practice Manager will take full details of your complaint and decide how best to undertake the investigation. If the complaint is of a clinical nature the partner who oversees the practice complaints procedure will deal with it. If the doctor himself is the subject of the complaint, one of the other partners will be the investigating partner. We will inform you if the investigation of the complaint requires your records to be seen by someone other than a member of the practice team.

We think it is important to deal with complaints swiftly, so you will normally be given a written reply as soon as reasonably practicable after completing the investigation. Occasionally, if we have to make a lot of enquiries and the people involved are away, it might take a little longer, but we will keep you informed. Following the written reply, we will arrange a meeting if you feel that further discussion is necessary. You may bring a friend or relative with you to the meeting.

We will try to address your concerns fully, provide you with an explanation and discuss any action that may be needed. We hope that at the end of the meeting you will feel satisfied that we have dealt with the matter thoroughly.

If you are not content with the outcome, you can ask the Parliamentary and Health Service Ombudsman to investigate the case and carry out an independent review. The Ombudsman is independent of both the NHS and the government. They are not obliged to investigate every complaint and will normally only review a complaint once it has been through the local resolution stage.
